# Successfully compete for and hire the most qualified talent worldwide

Whether you are recruiting people from abroad to work locally or you are recruiting and hiring people to work for you in their home countries, LexisNexis® Global Screening Solutions can help you compete for, and hire, the most qualified talent worldwide. As a global information provider, LexisNexis® helps you manage the complexities and details required in making international hiring decisions.

Our worldwide experience and strength allows you to:

- Easily accommodate high volume hiring peaks, in which you must screen and hire a large volume of workers for specific projects at remote locations.
- Manage a global workforce screening program from anywhere in the world.
- Protect your employees, your workplace and your company assets, as well as the communities in which you operate.

## Unmatched Customer Service

LexisNexis® delivers continuous program support to help you make the best hiring decisions. We work hard to ensure that you receive consistently high-quality results and that you understand the information you receive.

In addition, you get knowledgeable, friendly customer service from representatives who can help you with your screening orders regardless of where you are located.

## Key Benefits

### • Enjoy on-going, country-specific screening guidance

As an industry leader, LexisNexis® Screening Solutions has the dedicated resources required for ongoing investment and expansion in our global business to accommodate your evolving needs.

### • Place orders for any country at any time, no matter your location

Place orders, check status and receive results via our advanced Web-based platform, regardless of location.

### • Boost global efficiencies with a single source solution

Work with one company, one platform and one customer service organization for all your screening needs, rather than working with multiple providers for specific countries.

### • Leverage a multi-national legal network for compliance confidence

To help you maintain compliance with complex global regulations, we work with outside counsel and a network of legal resources to review regional and country laws and regulations to determine which screening products can be offered to meet your information needs.

# Increase Your Global Compliance Confidence

Regardless of where your organization is based, trying to screen candidates who have lived and worked in other countries gets complicated—fast. You need a provider with experience and knowledge that can help you navigate the complex maze of regional and in-country laws.

At LexisNexis®, we have devoted substantial resources to helping you meet these critical requirements.

- **Compliance Engine**

To make it easier for you to comply with various country laws regarding background screening, we have tailored our Web-based solution to only provide you with access to searches that are legally permissible within the specified country.

- **Validation Engine**

We can accelerate your screening process by automatically identifying data fields as required if they are mandatory for the search in question. At order summary before you submit your search, you are notified immediately of searches that are missing information. Available for select countries.

- **Dedicated Global Compliance Officer**

We have a dedicated, full-time resource focused on our international compliance as it relates to data access, data usage, and data transmission (e.g., European Union, Safe Harbor).

## Extensive International Coverage with Localized Support

*Broaden your hiring options and minimize risk*

With worldwide support offices located in critical geographic regions, we can deliver more of the quality information you need from practically anywhere in the world—more than 190 countries.
