Sustainable and continuous trust and risk assessment is critical to achieve your business's goals

Join thousands of organizations that leverage AI-driven analytics powered by one of the world's largest collaborative intelligence networks. Enrich your decisioning with greater intelligence and insight from consumers' interactions and transactions elsewhere, building trust and supporting more sustainable growth.

Reduce abandonment and customer-acquisition costs by speeding up customer onboarding.

Increase conversions and depress churn by making customer experiences more convenient, beginning at account login.

Improve operational efficiency by reducing unnecessary manual reviews and API calls.

Keep fraud within tolerable limits by detecting more malicious identities.

For over two decades, LexisNexis® Risk Solutions has been facilitating a collective view of physical and digital identity activity, legitimacy and confirmed fraud via broad and deep multi-dimensional data for global organizations.

The LexisNexis® Digital Identity Network® graph provides a global view of consumer digital footprint and device usage via more than 100 billion transactions analyzed annually.

LexisNexis® Emailage® global digital insights and shared transaction history draw on more than 5.9 billion digital identifiers.

The LexisNexis® Inquiry Identity Network delivers 17 million reported frauds and over 24 billion consumer application events, representing 99% of the adult population in the United States.

We have been the trusted custodian of personal consumer information, application data and subsequent performance data from our clients for more than 20 years.
