Streamline Criminal Investigations and Generate Actionable Leads

LexisNexis® Risk Solutions Criminal Investigative Solutions and Services capabilities, including our Accurint® product suite, leverage massive data and advanced analytics to help law enforcement solve crimes. They also facilitate cross-jurisdictional collaboration with powerful information sharing and data fusion tools, in support of specific law enforcement and homeland security missions.

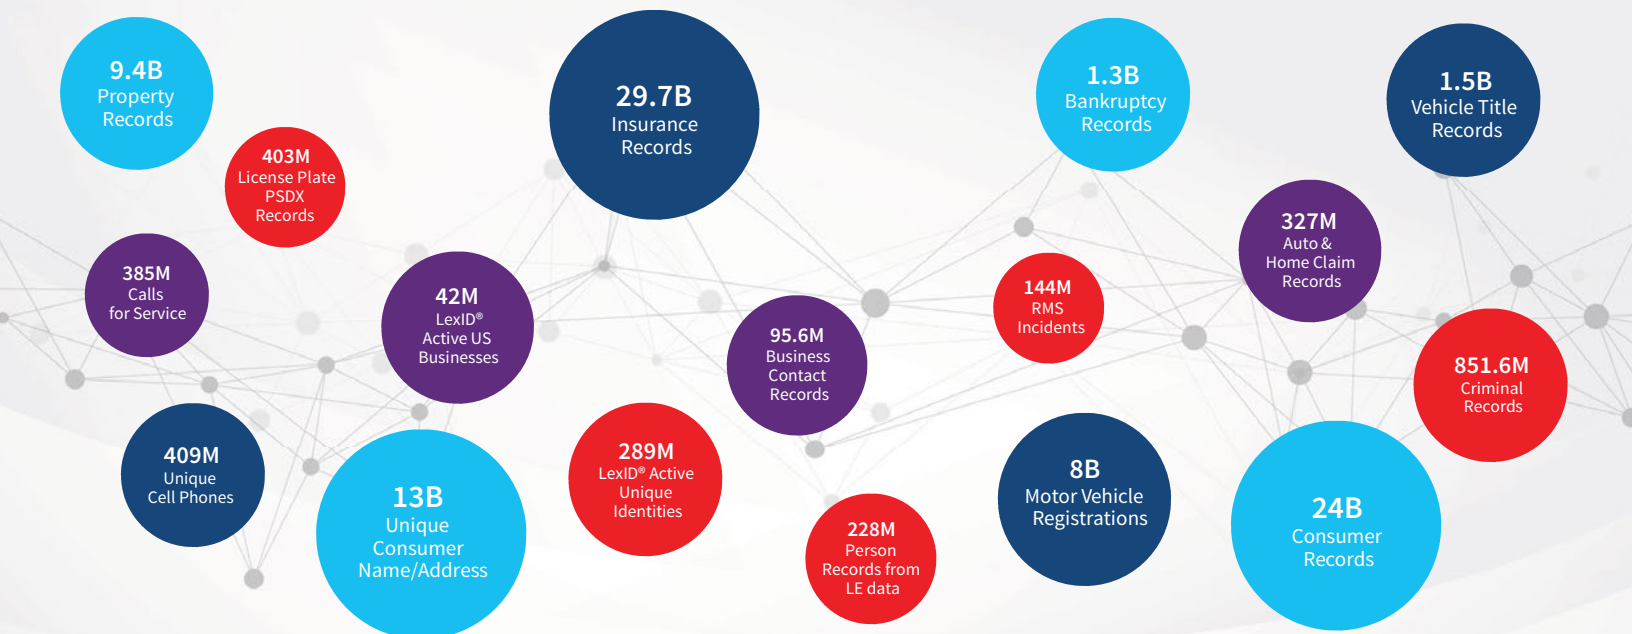

Our solutions can help you:

- Quickly identify people and their addresses, relatives and business associates
- Search a comprehensive database to uncover non-obvious connections
- Process thousands of records at a time to locate suspects, witnesses and fugitives for criminal investigations
- Derive investigative intelligence from crime mapping and analysis
- Share critical case information with colleagues and investigators
- Quickly correlate critical investigative data using data-enhanced call detail record analysis

Our Vast Data Sets include 91+ billion public records, 100+ million law enforcement data records and 14+ petabytes of data.

Criminal Investigative Solutions & Services

Accurint® for Law Enforcement

Accurint® for Law Enforcement is a cutting-edge investigative technology that can expedite the identification of people and their assets, addresses, relatives and business associates. It provides instant access to a comprehensive database of identity data that would ordinarily take days to collect.

Accurint® Virtual Crime Center

Accurint® Virtual Crime Center is a mission critical investigative tool allowing law enforcement the ability to link cross-jurisdictional data quickly and efficiently in urgent situations. This investigative solution combines identity data and nationwide law enforcement data with your data in one powerful search, building a comprehensive profile of an individual, location, and incident to reveal non-obvious connections. Accurint Virtual Crime Center also provides jail booking records and photo lineup tools.

Accurint® TraX™

Accurint® TraX™ allows investigators to quickly conduct pattern of life analysis by putting automated, data enhanced, call detail record analysis at the fingertips of any investigator. This solution saves you valuable time by combining identity data and law enforcement data with device geolocation analysis. TraX allows for quick visualization and analysis of third-party device geolocation information, powered by identity data, to find a subject's location more quickly and efficiently than ever before.

LexisNexis® Criminal Investigative Services

LexisNexis® Criminal Investigative Services connects law enforcement customers with our team of Subject Matter Experts (SMEs) who can provide real-time support for criminal investigations. Agencies can gain immediate access to SMEs that can support an investigation by leveraging unique investigative capabilities, supported by LexisNexis tools and solutions, for investigative insight and case resolution.

Accurint® Public Safety Marketplace

Accurint® Public Safety Marketplace provides law enforcement a way to seamlessly identify trusted providers of cutting-edge solutions to fit the needs of their agency. This creates a single, trusted location for law enforcement agencies to purchase various products and tools, that have been enhanced by LexisNexis® Risk Solutions data assets and linking technology, allowing users to leverage their detailed law enforcement data with other important modules, saving time during critical investigations.
