

Command a higher level of policing efficiency through advanced technology.

Proven solutions to help you serve and protect more effectively.

### **Gain efficiencies through advanced technology**

Those in law enforcement take an oath to honorably uphold the law, and to protect and serve their communities. Day-to-day policing is challenging on its own, let alone the other forces which distract from core policing activities—shrinking budgets, increasing administrative tasks, technology advancements and more.

LexisNexis® Coplogic™ Solutions provides a suite of web-based tools aimed at helping law enforcement agencies create workflow efficiencies through advanced technology. Agencies leveraging our solutions achieve significant time savings through the elimination of costly and manual processes enabling them to reallocate resources to higher priority activities. Additionally, community members benefit through increased access to services.

## Streamline workflows with proven solutions

Developed by and specifically for law enforcement, Coplogic Solutions is a proven suite of services available to any law enforcement agency interested in operating more efficiently and serving their community more effectively. At the core of our solutions is LexisNexis® Command Center.

**LexisNexis Command Center** is a web-based portal that provides agencies with secure access to our solutions through a single point of entry. Authorized users gain access to reports and analytics for enhanced productivity, and administrators can conveniently manage users.

### Crash Reporting, Distribution and Analytics

**LexisNexis® eCrash** – An electronic crash reporting solution, available at no cost to law enforcement agencies, allows officers to capture crash data on-scene from the safety of their patrol car. Auto-populated forms, scene diagramming and other time-saving features improve data accuracy while enabling officers to clear an accident scene more quickly, reducing risk.

**LexisNexis® Police Reports** – A convenient and secure ecommerce site for the purchase and distribution of crash reports. Offered at no charge to law enforcement agencies, this service allows agencies to generate report fee income\*, while reducing the overhead costs associated with manual fulfillment.

**CrashLogic®** – A multi-faceted, no-cost crash report management solution that provides insightful crash analytics and reporting. The meaningful data from CrashLogic can be used to create safer roadways and help your agency qualify for valuable grants and programs.

### Training, Compliance and Scheduling

**LexisNexis® Law Enforcement Automated Personnel System™** – A personnel management and training solution designed to streamline outdated internal training and employee processes. Ensure the success of getting a new officer on board and maintain compliance with ongoing training and certifications for all agency personnel.

### LexisNexis® Overtime and Scheduling System –

A comprehensive scheduling tool that can facilitate various agency schedules and overtime. Online record keeping enables administrators to maintain accountability, and opt-in notifications ensures users receive timely notice of overtime or extra-duty opportunities.

### Community Reporting

### LexisNexis® Desk Officer Reporting System –

An online community incident reporting system where citizens can file incident reports, vehicle collision reports, crime tips and much more. Increase services to your community, reduce operating expenses and return to proactive patrolling by taking up to 30% of your overall reports online.

### Issuance

**LexisNexis® eCitation** – An electronic citation solution which enables officers to issue complete, legible and accurate citations in minutes. Increase on-scene officer safety and productivity with auto-populated forms and alerts to potentially dangerous offenders.

**eWarrants** – An electronic warrant management system which provides the ability to capture, store, file, distribute, process and securely access electronic warrants received by and created by your agency. eWarrants expedites the warrant process by helping you more quickly process and serve.

In 2017, over 400 agencies used the LexisNexis® Desk Officer Reporting System to save \$48M.†

### Convenient and accessible

Our solutions easily integrate with your custom or third-party records management system (RMS), and because they are web-based, users can access our solutions anytime from any web-enabled device. Dedicated LexisNexis® servers host our solutions, so no additional infrastructure is needed on your end. And to ensure your agency receives the full value of our solutions, custom and comprehensive training options are available.

Complimentary grant-writing assistance is also available to qualifying agencies.

“ This is a really good system, very user friendly...Thank you for a great product and exceptional customer service. ”

Captain David L. Castle  
Winter Haven Police Department  
**LexisNexis Law Enforcement Automated Personnel System**

“ Rather than just taking a stab at when I should have my traffic cars working, I can look at the data and direct them...And some of the data you would have never thought to look at. ”

Chief Frank Previte  
Lewiston Police Department, Niagara County  
CrashLogic customer

## Proven solutions from a dedicated provider
