

# LexisNexis® Desk Officer Reporting System - for minor crash reporting—now no cost to qualifying law enforcement agencies\*

Efficiently manage community needs and resources with citizen online minor crash reporting.

Also includes mobile quick connect text service!

Dispatchers transfer non-emergency inbound callers to an agency-dedicated number that automatically texts a link to your application to the inbound caller, where they can then submit their online report.

Responding to minor vehicle accidents can divert manpower from immediate community safety issues and tie up limited resources.

**Introducing LexisNexis® Desk Officer Reporting System (DORS)** for minor crash reporting, an online citizen self-reporting tool that is available 24/7 from internet-enabled PCs or mobile devices through mobile quick connect.

The system is configured to help capture the information your agency requires to file a report, helping to make it easy to manage, monitor, follow up, reject and even merge reports.

DORS for minor crash reporting can help improve the efficiency and effectiveness of your department today, and requires no additional infrastructure.

\*Contact your sales representative to determine if you qualify for this free offer. Other restrictions may apply.

The Desk Officer Reporting System is not provided by "consumer reporting agencies," as that term is defined in the Fair Credit Reporting Act (15 U.S.C. § 1681, et seq.) ("FCRA") and does not constitute "consumer reports," as that term is defined in the FCRA. Accordingly, the Desk Officer Reporting System may not be used in whole or in part as a factor in determining eligibility for credit, insurance, employment or for any other eligibility purpose that would qualify it as a consumer report under the FCRA. Due to the nature of the origin of public record information, the public records and commercially available data sources used in reports may contain errors. Source data is sometimes reported or entered inaccurately, processed poorly or incorrectly, and is generally not free from defect. This product or service aggregates and reports data, as provided by the public records and commercially available data sources, and is not the source of the data, nor is it a comprehensive compilation of the data. Before relying on any data, it should be independently verified. LexisNexis and the Knowledge Burst logo are registered trademarks of RELX Inc.
