

Reduce Hours Comparing Call Detail Records to Crime Locations with ONE Click

Accurint® Device Time/Location Correlation Feature

Law enforcement agencies are currently expected to deliver the same level of service to protect and serve their communities with fewer available resources. Criminal investigations often require hours of dedicated time to successfully resolve and prosecute. For more complex investigations involving device geolocation, reducing the time required for data analysis is invaluable.

11

The Accurint[®] Device Time/Location Correlation Feature is now available to users of Accurint[®] Virtual Crime Center and Accurint[®] TraX[™]. This feature allows users to seamlessly combine and compare call detail and device records with contributory law enforcement data with **one** click.

Location/date information found in subject's **call detail or device records**

The Power of Accurint®

Contributory law enforcement data occurring at the same time and location

Overlap to show connection between a subject and potential crimes, events, and locations

USE CASE:

A person of interest has been identified in multiple indecent exposure cases during a four-month period and is believed to be involved in additional events.

BEFORE Device Time/Location Correlation

AFTER Device Time/Location Correlation

Multiple searches needed to identify indecent exposure incidents that occurred in your jurisdiction during this four-month period

Hours are spent manually comparing crimes that occurred in areas the person of interest is known to have been located in based on legally obtained call detail record data

Two Hundred plus potential cases identified

for closer examination, taking hours to narrow down to just twenty-five additional cases

One single search, initiated using the call detail records processed by Accurint TraX, automatically visualizes the person of interest's known location(s) in Accurint Virtual Crime Center

Fifty potential cases are identified as occurring in an area that overlapped with the person of interest's known location

Hours of time are saved reviewing the cases to identify the twenty-five additional cases

Accurint, Accurint Virtual Crime Center nd Accurint TraX services are not provided by "consumer reporting agencies," as that term is defined in the Fair Credit Reporting Act (15 U.S.C. § 1681, et seq.) ("FCRA") and do not constitute "consumer reports," as that term is defined in the FCRA. Accordingly, Accurint, Accurint Virtual Crime Center and Accurint TraX services may not be used in whole or in part as a factor in determining eligibility for credit, insurance, employment, or another purpose in connection with which a consumer report may be used under the FCRA. Due to the nature of the origin of public record information, the public records and commercially available data sources used in reports may contain errors. Source data is sometimes reported or entered inaccurately, processed poorly or incorrectly, and is generally not free from defect. These products or services aggregate and report data, as provided by the public records and commercially available data sources, and are not the source of the data, nor are they a comprehensive compilation of the data. Before relying on any data, it should be independently verified. LexisNexis Risk Data Management Inc.
