Digitalization Drives Change

- Prevent fraudulent account takeovers to ensure member security throughout their journey
- Expand online services
- Automate more transactions
- Improve authentication of self service and digital transactions including call center transactions
- Increase operational efficiencies

3 Core Needs Across a Member’s Journey

1. Identity Verification
   - Combine multi-dimensional physical and digital identity intelligence, contributor insights and dynamic, risk-based authentication to ultimately build identity trust.

2. Data Quality Management
   - Cleanse, enrich and connect your data to help your agency break down silos and set the stage for success.

3. Fraud Detection & Prevention
   - Bolster and simplify fraud investigations using data analytics and intelligence on people, entities and their networks to surface fraud vectors and intricate fraud schemes.

There is a better way to secure government member personal information before it’s compromised.

One Seamless and Secure Solution

Comprehensive identity verification, fraud prevention and data quality management

LexisNexis Emailage, LexisNexis FlexID, LexisNexis Bank Account Owner Verification, LexisNexis Batch, and ThreatMetrix for Government services referred to herein are not provided by “consumer reporting agencies,” as that term is defined in the Fair Credit Reporting Act (15 U.S.C. §1681, et seq.), and do not constitute “consumer reports,” as that term is defined in the FCRA. Accordingly, LexisNexis Emailage, LexisNexis FlexID, LexisNexis Bank Account Owner Verification, LexisNexis Batch, and ThreatMetrix for Government services may not be used in whole or in part as a factor in determining eligibility for credit, insurance, employment or another purpose in connection with which a consumer report may be used under the FCRA. Due to the nature of the origin of public record information, the public records and commercially available data sources used in reports may contain errors. Source data is sometimes reported or entered inaccurately, processed poorly or incorrectly and is generally not free from defects. The product or service aggregates and reports data, as provided by the public records and commercially available data sources, which, at the source of the data, may not be comprehensive compilations of the data. Before relying on any data, it should be independently verified. LexisNexis and the Knowledge Burst logo are registered trademarks of RELX Inc. Emailage is a registered trademark of Emailage Corp.
