

LexisNexis[®] Bridger Insight[®] XG for Life Sciences

Multifaceted meets laser-focused

One of the most trusted compliance suites in the market, LexisNexis® Bridger Insight® XG is specifically designed to help health care organizations comply with global regulations, conduct due diligence and reduce anti-bribery and corruption risks more efficiently and cost-effectively all through a single platform.

Managing risk is the key

The Life Sciences industry has heightened exposure to bribery and corruption risk and has had its fair share of Foreign Corruption Practices Act (FCPA) enforcement actions. A comprehensive compliance and fraud management program is critical to avoiding civil and criminal enforcements against corporate executives, Civil Monetary Penalties (CMPs) for using federal funds for excluded providers, a tarnished corporate image and losing investor confidence. A strong defense can protect your bottom line and support your regulatory responsibilities.

Expansive coverage delivers greater insight

Bridger Insight XG, powered by the WorldCompliance® screening database, puts a wealth of U.S. and international risk profiles at your fingertips. With a single transaction request, you may research individuals or businesses for global sanctions and enforcements, adverse media and gain insight into Politically Exposed Persons. Leverage LexisNexis best-in-class matching technology to gain insight and minimize manual reviews.

We've made it easy to detect corruption and bribery risk

Our industry-leading enhanced due diligence tools deliver the powerful combination of leading filtering software and unmatched global screening data coverage. Bridger Insight XG helps organizations conduct due diligence and comply with over 100 jurisdiction-specific laws and regulations including FCPA, the USA Patriot Act and UK Bribery Act. Access global sanctions and enforcements lists, LEIE and SAM lists, extensive PEP coverage and profiled adverse media information from WorldCompliance. A single integration-ready platform provides flexibility through a simplified workflow for your global operations and information technology teams.

Protect your reputation and your bottom line

Meeting global regulatory requirements can be costly, but failing to comply can be even more expensive, impacting both your brand value and your bottom line.

Key Advantages

- Initial and ongoing due diligence on distributors, suppliers, foreign officials, agents and business partners
- Single user interface for global sanctions and enforcements lists, List of Excluded Individuals and Entities (LEIE) and System for Award Management (SAM) lists, extensive Politically Exposed Person (PEP) coverage, profiled adverse media and further due diligence tools
- Enhanced due diligence, including: LexisNexis[®] Negative News and LexisNexis[®] Anti-Money Laundering Solutions at your fingertips
- Comprehensive training availability and exceptional customer service
- Intuitive product interface for quick learning curve
- Automated workflow, archiving and reporting to maximize audit efficiency
- Flexible to support transaction searches, scalable to handle high volume batch processing

1

Bridger Insight XG and LexisNexis Enhanced Due Diligence tools can help you:

- Comply with global compliance regulations like FCPA, OFAC or USA Patriot Act and screen against LEIE and SAM lists
- Identify suspected fraudsters using custom hotlist capabilities, even when they try to disguise their identity by using an alias or a new address
- Conduct due diligence on business and individuals with quick access to due diligence research tools
- Perform PEP and foreign corruption screening by leveraging in-depth profile data including PEP lists and Enhanced Due Diligence reports

Quick setup, system integration and low maintenance

Bridger Insight XG tools run on LexisNexis servers eliminating product installation or system maintenance. The Integration Tool Kit allows Search API integration and Automated Batch functionality to be easily integrated into already installed systems.

User-friendly and amazingly deductive

Day-to-day use is simple and straightforward. Bridger Insight XG employs an innovative fuzzy-logic matching algorithm that can help you achieve extremely low false positive rates, freeing up your time to focus on missioncritical activities. In fact, an internal test resulted in a false positive rate of less than one percent¹ against some of the watchlists.

How can Bridger Insight XG benefit you?

Bridger Insight XG is trusted by various businesses in the Life Sciences industry, including but not limited to:

- Pharmaceutical companies
- Medical device manufacturers
- Health care insurers
- Life insurance companies
- Non-profit health care corporations
- Hospitals and medical institutions

Bridger Insight XG: Enhanced Due Diligence and Watchlist Tools

Best-in-class matching technology provides flexible and safe false positive reduction features.

WorldCompliance database provides access to more than 2.5 million risk entities in 67 risk categories across 240 countries and territories.

Comprehensive custom list management allows flexibility to easily and rapidly deploy new screening lists.

AML Solutions page is an enhanced due diligence tool with hundreds of searches like Find-A-Person and LexisNexis® SmartLinx® research whether individuals and businesses are who they claim to be by selecting from the above options through an easy integration with Bridger Insight XG. Industry-leading global screening coverage, technology and analytics can help you:

- Fortify compliance activities and protect against risk
- Reduce false positives and minimize manual reviews
- Reach new markets and maximize global market opportunities

Bridger Insight XG combines expanded global data coverage with the agility to support an efficient case management workflow to track and record matches for further due diligence. Reach more global customers, protect against compliance impacts and increase revenue with Bridger Insight XG.

About LexisNexis® Risk Solutions

LexisNexis Risk Solutions (www.lexisnexis.com/risk) is a leader in providing essential information that helps customers across all industries and government assess, predict and manage risk. Combining cutting-edge technology, unique data and advanced analytics, LexisNexis Risk Solutions provides products and services that address evolving client needs in the risk sector while upholding the highest standards of security and privacy. LexisNexis Risk Solutions is part of RELX Group plc, a world-leading provider of information solutions for professional customers across industries.

Our health care solutions combine proprietary analytics, science and technology with the industry's leading sources of provider, member, claims and public records information to improve cost savings, health outcomes, data quality, compliance and exposure to fraud, waste and abuse.

¹ False positive rates may vary depending on input data, score thresholds and the watchlists selected. The sample percentage of less than one percent was generated by scanning sample data against the OFAC Specially Designated Nationals (SDN) list within the Bridger Insight XG platform. Searches performed using your organization's data may yield different results.

The Anti-Money Laundering Solutions, Bridger Insight XG and WorldCompliance services are not provided by "consumer reporting agencies," as that term is defined in the Fair Credit Reporting Act (15 U.S.C. Non FCRA § 1681, et seq.) ("FCRA") and do not constitute "consumer reports," as that term is defined in the FCRA. Accordingly, the Anti-Money Laundering Solutions, Bridger Insight XG and WorldCompliance services may not be used in whole or in part as a factor in determining eligibility for credit, insurance, employment or another purpose in connection with which a consumer report may be used under the FCRA. Due to the nature of the origin of public record information, the public records and commercially available data sources used in reports may contain errors. Source data is sometimes reported or entered inaccurately, processed poorly or incorrectly, and is generally not free from defect. This product or service aggregates and reports data, as provided by the public records and commercially available data sources, and is not the source of the data, nor is it a comprehensive compilation of the data.
