

Move beyond your resource limitations

Grow your fraud identification, detection and investigation capabilities with Virtual SIU services.

Healthcare fraud, waste and abuse hurts every health plan's bottom line

With today's increasingly limited resources, opportunities to maintain full compliance and identify, prevent and investigate the right cases are often missed. Special investigation units (SIUs) frequently have an over abundance of work to perform. From managing and investigating internal referrals, to complying with mounting regulations, to overseeing reporting requirements, it takes people and time to accomplish these tasks effectively.
