

A powerful tool for life insurance underwriting

The LexisNexis® Electronic Inspection Report provides insurance underwriters with instant access to the public records information they need to evaluate risks presented by life insurance applicants.

LexisNexis Electronic Inspection Report is a powerful tool for life insurance underwriters, offering:

Fast access

Instead of waiting weeks for traditional inspection reports, underwriters can now gain virtually instant access to public records information through the Electronic Inspection Report. LexisNexis Risk Solutions delivers the Electronic Inspection Report in both a system-to-system XML format, as well as through our secure online portal.

Independent check of personal data

The Electronic Inspection Report allows you to independently confirm information that the proposed insured submitted on the application; or possibly uncover risk not disclosed on the application. It also provides a holistic view of the proposed insured's public records footprint, providing information such as criminal records history, properties owned, bankruptcies and professional licenses. Public records data can also extend your underwriting reach, particularly for hard-to-reach population segments.

Cost savings

The Electronic Inspection Report provides multiple types of public records underwriting data in one streamlined report, eliminating the need to order the data components separately, saving both time

and money. Because the Electronic Inspection Report is also available through our secure online portal, carriers can take advantage of streamlined access to a single point of delivery, requiring less dependence on IT support and resources, thus enhancing your organization's efficiency and the speed of doing business.

The Electronic Inspection Report has direct benefit to underwriters by providing access to data that will:

Help speed up the underwriting process

Minimize risk by providing a clearer picture of the proposed insured

Consumer disclosure

The Electronic Inspection Report is a consumer report as defined by the Fair Credit Reporting Act (FCRA). LexisNexis Risk Solutions provides support for adversely impacted consumers through its Consumer Disclosure Center. Consumers may contact LexisNexis Risk Solutions via phone, mail or at consumerdisclosure.com.
