

## Speed up your underwriting process

C.L.U.E.® Auto finds more claims history per inquiry than any other source.

**LexisNexis® C.L.U.E.® Auto is a claims history information exchange with 99.6 percent industry contribution. C.L.U.E.® Auto contains up to seven years of personal automobile claims matching the search criteria submitted by the inquiring insurance company.**

With its leading-edge linking capabilities and advanced big data processing platform, HPCC Systems®, C.L.U.E. Auto discovers more claims per inquiry than any other available source.

Data provided in C.L.U.E.® reports include information such as name, date of birth and policy number in addition to claim details such as date of loss, claim type, amounts paid, fault details and vehicle information.

### **C.L.U.E. Auto helps insurers:**

- Speed up the underwriting function by providing quick and easy access to comprehensive data
- Receive results interactively in a more timely and reliable fashion via flexible delivery systems
- Reduce risk and liability by helping assist underwriters in predicting future claims
- Make better informed, more immediate business decisions needed to close a total loss claim.

On average, at least one claim is matched to more than 65% of C.L.U.E. Auto inquiries. When a claim is matched, C.L.U.E. Auto generally returns more than three claims per inquiry. C.L.U.E. Auto has been a trusted source of auto claims data for more than 35 years.

## How C.L.U.E. Works

LexID® proprietary linking technology is a key factor in matching claims by leveraging more than 40 billion public and proprietary records from more than 10,000 sources. LexID is the fastest linking technology available, helping enable customers to identify, organize information quickly and link records together.
