

Minimize the disruption.

Optimize your resources and get crash data and analytics visualizations.

Manually locating, printing and delivering crash reports is a cumbersome process for many agencies. It requires time, effort and resources, which can add to the mounting pressure to do more with less.

LexisNexis® BuyCrash® helps ease this administrative burden through electronic distribution of crash reports, seven days a week, 24 hours a day. With these efficiencies, agencies can invest their time where it counts – serving their communities.

Efficient and intuitive, the solution also provides sophisticated data and analytics through a user-friendly dashboard to help agencies transform their policing with the ability to proactively identify important traffic safety issues and trends.

From summarized dashboard views of crash statistics to heat maps of high-risk intersections, BuyCrash® enables agencies to activate and use their wealth of crash report data to keep the streets, highways and communities safer.

The solution includes free access to a nationwide crash report database of 173 million data records, including 91 million person and 82 million crash records. More than 35,000 crash reports and 62,000 VINs are added daily. This robust database enables investigators to dig deep into the data and receive fresh insights to help inform and accelerate investigative efforts.

Reduce costs and maintain current fees, with less effort.

Manual crash report distribution is an expensive process that requires people, paper, postage and ink. By converting to an electronic process with BuyCrash, agencies can save that money and reallocate those dollars to more important, higher priority law enforcement initiatives.

Likewise, all crash report fees* generated from online report sales can be used to offset the cost of other LexisNexis® Coplogic™ Solutions that can advance your agency's modernization and digital transformation efforts, such as community online reporting.

*To the extent an agency chooses to charge an agency report fee

One Portal. No Cost. Endless Benefits.

Agencies leveraging BuyCrash can access value-added data and analytic tools via the LexisNexis® Command Center at no cost.

LexisNexis® Command Center

Single sign-on access to robust administrative reporting, including BuyCrash report requests and sales, and valuable crash data and analytics, while enabling efficient management of users across multiple applications.

Sophisticated Crash Data and Analytics

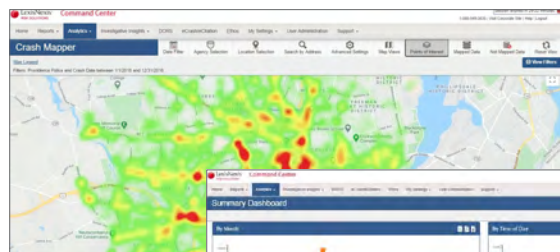

- **Crash Mapper**
 - Street views, satellite views and heat maps
 - Add landmarks, etc. to maps
 - Map based on longitude / latitude in report
 - Filter by date, injury type, crash city location, weekday
- **Dashboards**
 - Modify charts and graphs by clicking legend values
 - Download images in PDF or Excel formats
 - "Quickview" data in table form

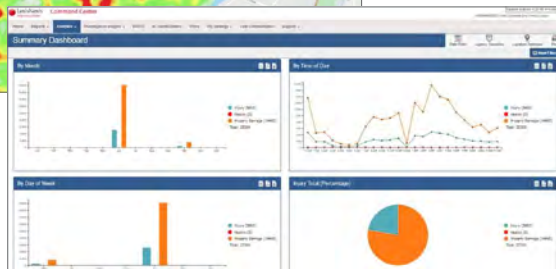

In-Depth Investigative Insights

- **Search** millions of crash reports submitted by more than 4,500 agencies around the country
- **Get free access** to AutoCheck® TriggersSM to search and monitor VINs in seconds with the free mobile app
- **Access robust crash report data** that's backed by the information management strength of LexisNexis, a trusted custodian of data for more than 40 years
