

ARE YOU COVERING EVERYONE IN THE HOUSE WHO'S DRIVING THE FAMILY CAR?

Once a new applicant becomes a policyholder, changes can take place in the household that **you might not know about**, such as:

A teen gets a driver's license

Children move home from college

Grandparents move in

Changes to marital status

Approximately **20%** of the U.S. population lives with multiple generations under one roof.¹

HOW UNDISCLOSED DRIVERS IMPACT YOUR BUSINESS

Research shows an increase in profit and value for carriers who add uninsured and undisclosed drivers to their policyholders' coverage.²

\$1.7M
net premium acquired
(based on an average size carrier of 500K policies in force)

312%
return on investment

Don't let knowledge gaps about undisclosed drivers interfere with your profitability!

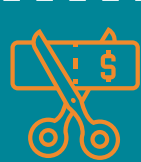

GET TIMELY NOTIFICATIONS OF POTENTIAL NEW HOUSEHOLD DRIVERS WITH LEXISNEXIS® ACTIVE INSIGHTS—DRIVER DISCOVERY

LexisNexis Active Insights—Driver Discovery, a component of the LexisNexis Active Insights platform, monitors the auto book of business for participating carriers, then proactively alerts a carrier to potential additional drivers who are associated with a policy address. This includes young drivers coming of age for a license or another family member moving into the home. The information provided by Driver Discovery is then independently verified with the policyholder by the carrier before being used for underwriting purposes.

Driver Discovery features

Potentially improve loss ratios:
Charge the correct premium to reflect the risk.

Expense savings:
Leverage internal resources effectively by evaluating only policies that have a suspected new driver.

Increased match quality and coverage

Ability to process quickly

Ease of use—no input files

Ease of implementation—push reporting

Customized monitoring

Customized results
