

Accurint® Public Safety Marketplace Powerful Solutions That Are Better Together

The **Accurint® Public Safety Marketplace** provides law enforcement agencies with seamless access to a trusted digital ecosystem of cutting-edge solutions. The Accurint Public Safety Marketplace enables agencies to purchase and integrate diverse products and tools, each enhanced by LexisNexis® Risk Solutions data assets and linking technology, through a single sign-on through the Accurint® Virtual Crime Center. The Accurint Public Safety Marketplace offers unified access, providing streamlined entry to multiple distinct applications and partner offerings within a secure environment. Through the Accurint Virtual Crime Center, the Accurint Public Safety Marketplace centralizes powerful capabilities, streamlining investigative workflows and increasing operational efficiency.

Benefits of Accurint Public Safety Marketplace

Streamlined Access and Workflow:

Eliminate the inefficiency of managing multiple logins and platforms, allowing your team to focus on what matters.

Enhanced Investigative Capabilities:

Connect to advanced tools, all enhanced with our comprehensive data assets, for efficient investigations.

Centralized and Trusted Environment:

Access vetted, high-performance tools from trusted partners within a secure platform.

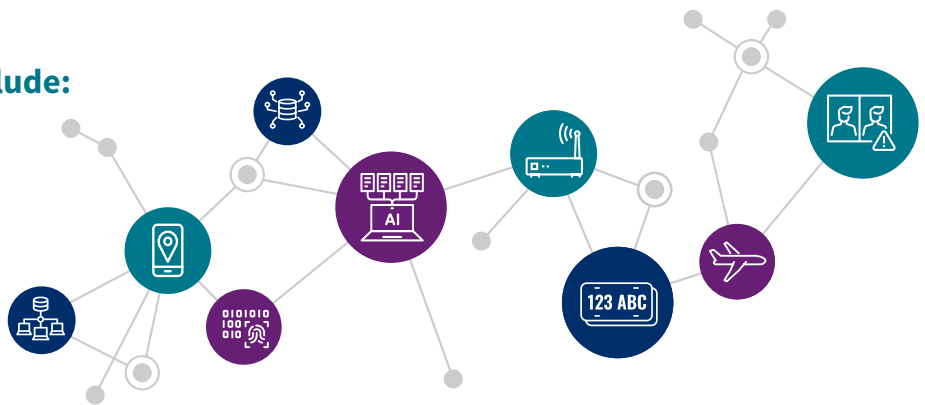

Enhanced Workflow to Quickly Uncover the Unknown

For agencies facing the challenges of managing multiple disparate tools for identity data, analytics, and geolocation, the Accurint Public Safety Marketplace offers a consolidated and robust alternative. By uniting critical information and advanced functionalities within a single interface, your agency can accelerate the discovery of hard-to-find information and uncover deeper investigative insights.

Our Accurint Public Safety Marketplace Connected Partners seamlessly connect data across platforms to save you critical time and amplify the depth of your investigations.

Connected Partners Solutions Include:

- Device Geolocation Analysis Tools
- Open-Source Intelligence (OSINT) Tools
- Human Trafficking Investigative Tools
- Image Matching Tools
- Device Geolocation Hardware
- License Plate Reader (LPR) Tools
- Aerial Imagery
