

Accurint One™

From Fragmented Tools to Operational Clarity

Accurint One™ is a unified, purpose-built solution that brings authoritative data, advanced analytics, and governed artificial intelligence (AI) together in one secure environment designed specifically for modern law enforcement.

The Challenge Facing Agencies Today

Law enforcement leaders are navigating increasing complexity:

Expanding data volumes from public records, digital exhaust, and location sources, often without the staff or tools to keep pace.

Growing expectations for advanced digital, location, and AI-driven intelligence, paired with increased scrutiny, governance, and accountability requirements.

Fragmented systems that can force investigators to jump between platforms, slowing investigations and increasing risk of missed connections.

Pressure to deliver faster, defensible outcomes while maintaining compliance, transparency, and public trust.

Manual, time-intensive workflows that can limit proactive policing and strain already stretched resources.

Agencies need clarity, not more disconnected systems.

The Accurint One™ Difference

A single, intuitive platform designed to support your agency in achieving its objectives safety, efficiently, and at scale.

A Unified Platform for Today and Beyond:

Bringing authoritative data, advanced tools, and analytics together in one secure environment.

Built for Every Role:

Flexibility to support real workflows across dispatch, patrol, investigators, analysts, and command.

Integrated Intelligence:

Eliminate disconnected systems with multiple, built-in data sources from public records, criminal justice information systems data, location intelligence, open-source intelligence, aerial imagery, and more.

Governed, Defensible AI:

Designed to accelerate outcomes through faster insight and clearer connections to support stronger case development, with trust and accountability.

Built for Public Safety Operations

Accurint One can reduce investigative friction and accelerate outcomes:

- ✓ Faster identifications and apprehensions
- ✓ Stronger, more defensible cases
- ✓ Increased efficiency and focused productivity
- ✓ Clearer intelligence for command-level decision-making

Accurint One is operational, not experimental. The infrastructure, services, and support are built specifically for public safety missions by a public safety focused team who understand investigative risk, court scrutiny, and command accountability.

Why It Matters

Accurint One™ can deliver the operational leap forward for modern policing by combining data, analytics, and AI into a governed, defensible platform agencies can trust.

Accurint One services are not provided by "consumer reporting agencies," as that term is defined in the Fair Credit Reporting Act (15 U.S.C. § 1681, et seq.) ("FCRA") and do not constitute "consumer reports," as that term is defined in the FCRA. Accordingly, Accurint One services may not be used in whole or in part as a factor in determining eligibility for credit, insurance, employment, or another purpose in connection with which a consumer report may be used under the FCRA. Due to the nature of the origin of public record information, the public records and commercially available data sources used in reports may contain errors. Source data is sometimes reported or entered inaccurately, processed poorly or incorrectly, and is generally not free from defect. These products or services aggregate and report data, as provided by the public records and commercially available data sources, and are not the source of the data, nor are they a comprehensive compilation of the data. Before relying on any data, it should be independently verified. LexisNexis and the Knowledge Burst logo are registered trademarks of RELX Inc.
