

Enhance profitability by optimizing home inspection spend with LexisNexis® Home Inspection Index.

Identify properties most likely to have an actionable inspection discovery with LexisNexis® Home Inspection Index. Use this predictive index to optimize inspection spend, streamline your workflow, and enhance your profitability.

Uncover more actionable information

- Leverage loss history, public records, home and neighborhood area information to best identify and rank properties for inspection decision purposes.
- Refine your inspection criteria with the index value, model indicators and attributes.

Optimize home inspection spend

- Save time, budget and resources by gaining the ability to identify and focus your efforts on properties with the highest risk of condition hazards to help determine whether to inspect.
- Eliminate expenses on unwarranted inspections.
- Help to better assign inspection types to inspection-warranted properties.
- Target your inspection dollars through address-specific index.

Streamlined processes

- Easily adopt and use data, in real-time or batch modes to support your workflow.
- Improve workflow processes with a single point of entry by integrating with your existing bind and post bind process.
- Smarter prioritization of your inspection work queue.

Enhance profitability

- Reduce time and expense both at point of sale and also across an existing book of business.
- Use the solution to supplement your business rules or models to improve new business processes.
- Reduce and manage inspection expenses while improving policyholder satisfaction.

LexisNexis Home Inspection index is not provided by "consumer reporting agencies," as that term is defined in the Fair Credit Reporting Act (15 U.S.C. § 1681, et seq.) ("FCRA") and does not constitute "consumer reports," as that term is defined in the FCRA. Accordingly, the Home Inspection index may not be used in whole or in part as a factor in determining eligibility for credit, insurance, employment or another purpose in connection with which a consumer report may be used under the FCRA. Due to the nature of the origin of public record information, the public records and commercially available data sources used in reports may contain errors. Source data is sometimes reported or entered inaccurately, processed poorly or incorrectly, and is generally not free from defect. This product or service aggregates and reports data, as provided by the public records and commercially available data sources, and is not the source of the data, nor is it a comprehensive compilation of the data. Before relying on any data, it should be independently verified. LexisNexis and the Knowledge Burst logo are registered trademarks of Reed Elsevier Properties Inc., used under license.
