

Accelerate portfolio growth with confidence

Unlock new opportunities with unique alternative data insights

Driving portfolio growth while managing risk is more challenging than ever before. Shifting consumer demand, growing competition and increasing economic pressures are changing the nature of credit risk assessment for financial services.

If you are only leveraging traditional tradeline credit data, you may be missing critical predictive signals that can help you make better lending decisions.

Rethink the data and insights used to assess credit risk.

See a new perspective on consumer creditworthiness

A clearer understanding of an applicant's creditworthiness from LexisNexis® RiskView™ can enable you to increase approval rates, improve profitability and manage risk thresholds across the customer lifecycle. This powerful solution suite draws on a broad range of alternative data — *providing insight into key risk factors that traditional credit data may miss.*

Build a more robust view of consumer credit risk

With LexisNexis® RiskView™ Solutions, which incorporate both life event data and alternative credit inquiry data, we can help you elevate your credit risk assessment to a whole new level. This also enhances your ability to evaluate consumers who are traditionally unscorable.

Our solution suite can help you:

Gain a clearer picture
of consumer risk

Increase predictive
score performance

Expedite decisioning
and extend more
competitive offers

Execute risk-based
pricing strategies across
a wide consumer base

Promote financial inclusion
by evaluating “credit
invisible” consumers

Boost booking rates
while managing risk
tolerances

Gain greater clarity on potential differences between a consumer's traditional credit score and their creditworthiness.

Improve consumer credit risk assessment with LexisNexis® RiskView™

Advanced alternative data helps you refine segmentation and improve lending decisions

Alternative credit behaviors and non-credit life events are highly effective predictors of creditworthiness. Products in the RiskView Suite provide organizations with insight into three credit dimensions to improve the assessment of *stability, ability to repay and willingness to repay*.

Enhance your perspective by seeing multiple dimensions of credit:

Alternative credit seeking

- Demand deposit accounts (DDA)
- Subprime lending
- Online lending

Non-credit events

- Professional licenses
- Public records
- Asset ownership

Tradeline credit data¹

- Credit card
- Installment loan
- Auto
- Mortgage

Only available in RiskView Spectrum.

Unlock opportunities across every consumer credit segment with LexisNexis® RiskView™

Whether an applicant has a “prime” traditional credit score or little to no credit history, lenders can leverage insights into alternative credit inquiries and non-credit events to fine-tune lending and origination strategies. Alternative credit data helps you determine consumer credit risk based on a more robust understanding of consumers across the credit spectrum.

Thin/no file consumers

Score the roughly one-fifth of the U.S. adult population that can't be scored using traditional credit data to capture new creditworthy customers your competitors may overlook.

Consumers on the margin

Clarify your view of the 8% of the U.S. scoreable population who are “near-prime” to find more approvable customers.

Prime consumers

Better understand the economic trajectory of prime consumers so you can make more relevant, competitive offers.

Alternative data insights and advanced analytics combine for powerful performance

Your organization likely has different objectives and growth goals for each stage of the customer journey. With a full suite to choose from, you can *select the right RiskView solution to help you pursue portfolio growth across the customer lifecycle.*

**List Generation**

Actionable pre-screen prospect lists can be generated using RiskView scores, custom scores, specific attributes or a combination of characteristics

Anonymized prospect lists

- Apply your own analytics to filter a more comprehensive, anonymous prospect list

Filtered extract lists

- We filter a list of prospects based on your parameters

**Attributes**

350+ next-generation insights provide powerful, granular alternative data for use in your internal scoring models

Attributes include

- Credit-seeking insights
- Address insights
- Public records
- Identity insights
- Asset insights
- Stability insights

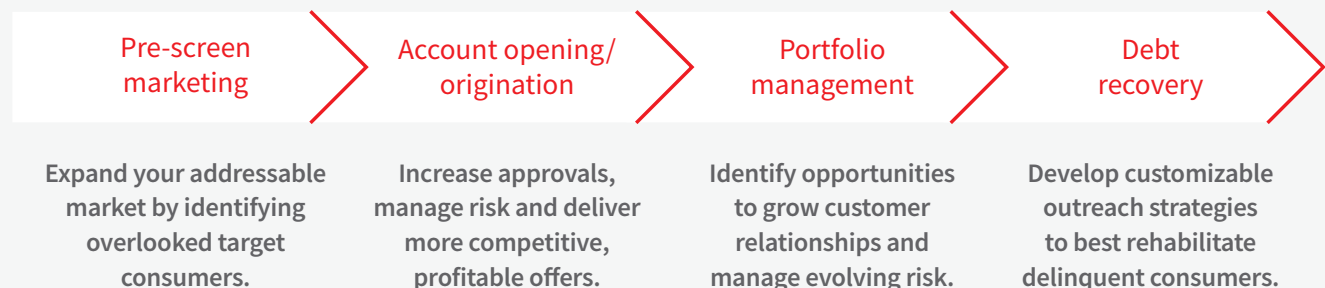

**Scores**

Three-digit risk scores empower smarter decisioning at every stage of the customer lifecycle

RiskView Optics and RiskView Spectrum incorporate

- Non-credit life events
- Alternative credit inquiry data
- Traditional credit data¹ (*RiskView Spectrum only*)

RiskView gives you unmatched insight into consumer life events, not just at loan origination but throughout the relationship lifecycle. From initial customer targeting to credit risk management to ongoing account management, RiskView helps you grow your business while managing your risk exposure.

See opportunity where others only see risk

Relying on traditional credit data alone may place you at a competitive disadvantage. LexisNexis® RiskView™ helps improve assessment of applicants and deliver more personalized offers to your best candidates — so you can find a competitive edge in an increasingly crowded marketplace.

Add alternative data to your credit risk assessment strategy so you can extend credit to more applicants with confidence.
