

Successfully implement
LexisNexis® Bridger Insight® XG
by starting with a solid strategy

Innovative compliance technology is a game changer that fortifies critical compliance protocols and adds operational efficiencies and cost synergies across the enterprise. Yet the evolving and increasingly complex demands of the global regulatory environment can complicate your ability to fully capture the highest returns from your compliance technology investment.

The LexisNexis® Professional Services team offers industry-tested compliance expertise to proactively navigate business, operations and data challenges and help your LexisNexis® Bridger Insight® XG implementation add immediate value to your organization.

Support more effective and cost-efficient compliance

Our Professional Services team helps start your Bridger Insight XG implementation with a solid strategy that reflects key stakeholder expectations and respects specific requirements unique to your core business operations.

Count on our extensive team of technology experts to clearly define and help execute an implementation that enables your business to:

Maximize return on your Bridger Insight XG investment

Minimize unexpected project scope changes and unplanned costs

Assess potential project roadblocks from a multi-dimensional perspective

Mitigate delays related to data quality

Improve consistency across critical compliance workflows

Strengthen compliance and anti-bribery and corruption protocols

Optimize implementation outcomes

Operational changes are never easy—even when they positively impact the enterprise. Our **Training and Configuration Service** is designed to minimize the disruptions to day-to-day operations and support a more seamless implementation of Bridger Insight XG. We can help anticipate and plan for business, technology and operations impacts and design an integrated implementation plan tailored to your business needs. Our experienced team provides recommendations that reflect industry

best practices along with upfront, comprehensive training to facilitate a smoother transition to the Bridger Insight XG environment that results in a more effective compliance program, right from the start.

Eliminate integration issues

Identifying and proactively planning for the interaction between Bridger Insight XG and your internal technology tools is an essential first step for a seamless integration. Our Professional Services experts help clearly scope and plan an implementation and integration strategy that accounts for existing technology resources and evolving compliance requirements. Save time and resources with our **API Web Service Integration** that provides a custom development plan and unique code that fits your specific needs, eliminates the need for complex data manipulation and supports a fully integrated integration.

Realize more relevant results

Confidently Know Your Customer and meet core compliance objectives with an effective matching configuration strategy that accounts for today's threats and supports the flexibility to quickly adjust to a shifting global risk landscape. Our **Tuning Methodology Development and Tuning Analytics Services** enable your business to navigate complex configurations and minimize the operations delays caused by false positives and surplus match results. Rely on our experienced IT professionals and proven compliance expertise to provide the insight and evidence to feel confident about your Bridger Insight XG configurations and take full advantage of the innovative matching capabilities delivered by the Bridger Insight XG solution.

Proactively navigate business, operations and data challenges to help your LexisNexis® Bridger Insight® XG investment add immediate value

Achieve greater consistency across key compliance workflows

Consistency and transparency are essential elements of an effective and efficient compliance workflow. A uniform approach enables your team to quickly assess compliance risk and make informed decisions. Increased transparency across compliance workflows also helps facilitate and simplify regulatory audit requirements. Our team offers a wealth of compliance expertise through our **Tuning Documentation and Alert Remediation Procedure Documentation Services** that enable your business to increase visibility across core compliance activities with clear and reliable procedural documentation that helps streamline audits.

Capture the agility to adjust to ever-changing compliance expectations

Change is the biggest constant in today's complex global compliance climate. A successful Bridger Insight XG implementation is a critical first step to achieving an effective compliance strategy that's flexible enough to support changing business demands. Our **Premier Support Services** team enables your business to easily navigate continual

global compliance challenges to help you achieve the highest returns on your compliance technology investment. Our knowledgeable team helps you keep pace with escalating compliance expectations and requirements by simplifying ongoing project management, application updates, enhancement requests, status reports and general application support. Our team is here to help your business fully leverage the capabilities Bridger Insight XG delivers within your compliance program and across the enterprise.

Improve results and investment returns

Ideal implementation and integration outcomes begin with a strategy that fully considers the business, technology and operations impacts of your Bridger Insight XG investment. Our Professional Services team draws upon deep compliance and technology expertise to help your business navigate the operations and data challenges inherent to compliance technology. We help you anticipate and proactively alleviate technology and process roadblocks to minimize implementation delays and unexpected costs. Improve results and maximize return on investment by starting your integration strategy with LexisNexis® Professional Services.
