One of the most trusted compliance suites in the market, LexisNexis® Bridger Insight® XG is specifically designed to help organizations conduct due diligence, comply with global regulations and reduce fraud risks more efficiently and cost-effectively—all through a fully integrated browser-based user interface.

Knowing your customer is the key

Today, knowing your existing and prospective customers is critical. Regulatory fines, a tarnished corporate image, customer exodus and losses from fraud are inevitable consequences of an ineffective compliance and fraud solution. A gap in your defense can erode trust, impacting your bottom line and the future of your organization.

We've made it easy to know your customers

Bridger Insight XG helps organizations conduct due diligence and comply with government regulations, including those related to Bank Secrecy Act, anti-money laundering (AML), foreign corruption and terrorist financing. Our industry-leading enhanced due diligence tools deliver the powerful combination of long-proven filtering software and unmatched global screening data coverage. Access global sanctions and enforcements lists, extensive PEP coverage and profiled adverse media information from LexisNexis® WorldCompliance™ Data. Bridger Insight XG is available in English, Spanish, French, German, Mandarin, Japanese and Portuguese to support your global business needs. A single integration-ready platform provides flexibility through a simplified workflow for your global operations teams.

Expansive coverage delivers greater customer insight

Bridger Insight XG, powered by WorldCompliance Data, puts a wealth of U.S. and international individual and business structured risk profiles at your fingertips. Research an individual or a business from a perspective that accounts for global sanctions and enforcements, politically exposed persons and associates, adverse media and state owned companies, with a single transaction request. Leverage Bridger Insight XG’s best-in-class matching technology to intelligently reduce false positives and minimize manual reviews.

Protect your reputation and your bottom line

Meeting global regulatory requirements can be costly, but failing to comply can be even more expensive, impacting both your brand value and your bottom line. Bridger Insight XG and LexisNexis Enhanced Due Diligence tools can help you:

• Comply with global regulations like OFAC, USA PATRIOT Act or the EU’s 4th Money Laundering Directive.

• Screen against the most comprehensive collection of risk profiles from WorldCompliance Data to enable your organization to easily and effectively implement sanctions programs with 100% coverage of publicly available sanctions lists.

• Perform Politically Exposed Person (PEP) and foreign corruption screening, leveraging in-depth profile data and Enhanced Due Diligence reports.

Quick setup, system integration and low maintenance

Bridger Insight XG Service runs on LexisNexis servers, eliminating product installation or system maintenance. This enables your existing systems to easily perform seamless Search API integration and take advantage of Automated Batch functionality.

User-friendly and amazingly deductive

Day-to-day use is simple and straightforward. Bridger Insight XG employs an innovative fuzzy-logic matching algorithm that can help you achieve extremely low false-positive rates, freeing up your time to focus on mission-critical revenue-generating activities. In fact, an internal test resulted in a false-positive rate of less than one percent against the OFAC watchlists.

Bridger Insight XG: Enhanced Due Diligence and Watchlist Tools

- **InstantID with Red Flags Rule Report** helps you quickly verify identity information and comply with the FACT Act Identity Theft Red Flags Rule by revealing common identify theft patterns and practices.

1 False-positive rates may vary depending on input data, score thresholds and the watchlists selected. The above sample percentage of less than one percent was generated by scanning sample data against the OFAC Specially Designated Nationals (SDN) list within the Bridger Insight XG platform. Searches performed using your organization’s data may yield different results.

* The Bridger Insight XG preview allows access to standard watchlist screening capabilities for non-production purposes during the 30-day trial.
