

NAVIGATE THE CHALLENGES OF BRIBERY AND CORRUPTION WHILE OPERATING IN A GLOBAL MARKET

Anti-Bribery and Corruption (ABC) enforcements are a growing and significant threat to your business

\$80M the average closing price of FCPA resolutions in 2013.¹

\$800M the largest FCPA enforcement to date.²

\$772M the second largest enforcement to date.³

55% the average cumulative reduction in market value for firms charged with bribery and fraud.⁴

\$17B decline in shareholder value experienced by major US retailer following bribery and corruption investigation.⁵

An enforcement can have damaging indirect costs for your business that last well beyond the initial fines and penalties

Tackle the challenges of ABC prevention without taking focus from your core business

ABC prevention can be managed with an integrated strategy that is powered by current and comprehensive perspective into your relationships with customers, vendors and third-party suppliers. A strong strategy will add a level of consistency and confidence into key decisioning processes.
